TRAINING EXPERIENCE

Web Development Trainee

AlmaBetter

08/2023 - Present   *Bangalore (Remote)*

- Acquired proficiency in both front-end and back-end programming.
- Utilized **React** for front-end development and **Redux** for state management.
- Developed skills in working with **Node.js** for backend development.
- Mastered best practices for user **authentication** and data encryption.
- Focused on creating high-quality and secure web applications through learning and practice.
- Built and deployed fully functional, **responsive**, full-stack web applications utilizing **MERN stack** with authentication and best practices.

ACADEMIC PROJECTS

Flashcard Generator App :

(12/2023 - 01/2024) 🔗

- Tags: React JS, react-redux, Tailwind CSS, Redux.
- AlmaBetter Verified Project.
- Developed a single-page Frontend web application using **React JS**, strategically incorporating diverse technologies to ensure unmatched scalability and efficiency throughout the App.
- Orchestrated the implementation of **Redux** for advanced state management, effectively tackling the challenges of scalability and complexity.
- Seamlessly integrated **React-Router-Dom** to establish secure and smooth routing mechanisms, ensuring protected navigation for users and an intuitive browsing experience.

Get YouTube Subscribers :

(01/2024 - 02/2024) 🔗

- Tags: React js, Node.js, **Express.js**, MongoDB, Restful API.
- AlmaBetter Verified Project.
- Designed and crafted a **RESTful API** capable of executing a range of GET requests.
- Enabled users to retrieve data based on diverse parameters.
- Utilized **Node.js** and **Express.js** for API development, with **MongoDB** serving as the storage and retrieval database.

Entertainment App :

(09/2023 - 10/2023) 🔗

- Tags: MERN, React JS, Redux-Toolkit, **Tailwinds**, **SCSS**, Node.js, MongoDB, Express.js, Restful-API.
- AlmaBetter Verified Project.
- Built and deployed a comprehensive media application from scratch, utilizing React and SCSS for the front end and Node.js, Express.js, and
- MongoDB for the back end.
- Implemented a responsive user interface, used **redux-toolkit** and **react-redux** for state management. **TMDB API** for media data.
- The app create a comprehensive media collection platform where users can explore, search, bookmark, and receive personalized recommendations for movies and TV shows, all while enjoying a seamless and secure user experience.

SKILLS

Languages and Tools :
HTML, CSS, JavaScript, Python.
